

# Band & Chorus Menu

In the mood for band and chorus practice ideas?

This is just what you need!

Explore the options below (even try them all).

Please share them with me (Classroom, Flipgrid, etc.)

because I'd love to see what you're up to!

(Band = blue / Chorus = yellow / Both = green)

Play your favorite song from your book 5 times in a row without making mistakes.	Play or sing a mini concert for your family.	Make up a new chorus warm up. Try filming it on Flipgrid so I can learn it too!	Practice a song from the book in a different place in your house from where you normally practice.
Record a video of yourself playing or singing a song and watch it.	Look in the back cover of the book and teach yourself 2 new notes.	Teach someone to play your instrument or sing our chorus songs. (Make sure to use new reeds and clean off your mouthpiece!)	With permission, look up the President's Own Marine Band on Youtube and find someone playing your instrument!
Make up a new chorus warm up. Try filming it on Flipgrid so I can learn it too!	Find the name of an accomplished musician that plays your instrument (or sings!). Watch a video of theirs and tell me about it on Flipgrid.	Thoroughly clean your instrument. (If you need help, look at the info paper on your folder, look in Google Classroom or watch a video online.)	Make up different lyrics to one of our chorus songs. Try making it a "parody" (a joke song) about something!
See how many seconds you can hold a note for. (Percussionists - count how many times you can play on your drum pad in 30 seconds).	Learn a new song in the book on your own!	With permission, look up an a cappella group (try Pentatonix!) and listen to a song using ONLY voices! (Listen for beat boxing, too!)	Play or sing a song you've learned from memory.
